

## Inspiring Agile Training

### About Agile Project Management

The rationale for existing 'waterfall' approaches to project management is clearly flawed in domains where the client can't tell you what they want until after they see it, and where delivery of a workable solution on time and budget is more important than delivering a perfect solution. Agile Project Management supports the concepts of iteration and incremental development that are necessary for agility.

### About Inspiring Projects

Inspiring Projects, a division of Aspire Australasia Pty Ltd, has been recognised by APMG International as an Accredited Training Organisation, licensed to deliver training in Agile Project Management (AgilePM®) and other Best Management Practice products. We offer training throughout the Asia Pacific region. We have had over 10 years' experience in using elements of agile in real programmes and projects, and bring this deep experience to our courses.

### About our training

Our Agile Project Management training aims to address the needs of those working in a project-focused environment who want to be more Agile. Derived from the proven fundamentals of the DSDM® method, our courses show you how to deliver Agile projects in organizations requiring standards, rigour and visibility around Project Management, while at the same time enabling the fast pace, change and empowerment provided by Agile. In addition to our accredited Foundation and Practitioner courses, we offer associated executive briefings and short courses, and workshops on specific agile skills and techniques.

### Additional support

We can deliver any of our courses in-house, or by self-study mode, and can customise our courses to better suit your needs. We also provide ongoing coaching and mentoring support, as well as in-depth consulting and assessment services.
