

Inspiring Change Management Training

About Change Management

Dealing with change and more importantly, the impact of change is a high priority for all organisations. It is said that change is the only constant in business, and perfecting the art of change management can be a challenge in any organisation. Being able to develop and implement effective change initiatives is paramount to ensuring ongoing business success. Change Management certification has been developed by APMG in partnership with the Change Management Institute (CMI), an independent, global professional association of change managers. Together they have developed a professional 'body of knowledge' which provides an independent benchmark of the professional knowledge expected of an effective change manager. Change Management certification is fully aligned with the change management body of knowledge. The syllabus samples a wide range of knowledge regarding the theory and practice of change management including:

- change and the individual;
- change and the organization;
- communication and stakeholder engagement and;
- change in practice.
